At the Annual Meeting in September 2010, several changes to NAFO's VMS were adopted by the NAFO Fisheries Commission.

Based on the outcome of the NAFO Annual Meeting in 2010, the following changes are proposed to AGDC for inclusion into the NAF standard:

### **Proposed Data Elements**

1. **CH** – Flag of Chartering Contracting Party to which the catch must be allocated (Char\*3, ISO-3166).
2. **AE** –Division entering into (Char\*6, ICES/NAFO Codes).

For additional clarification and rationale for the proposed additions to the NAF standard please download the [AGDC Report 2010](#).
